OPTUM®

Connect your account

Step 3: Enter Invite Code

The invite code is a secret between the patient and the healthcare provider with whom you are connecting. If you were not given a code directly from your provider, it will most likely be either the last four digits of your social security number or year of birth (yyyy). Remember, if you are setting up a proxy account for a child or dependent adult, the code applies to that patient and will be the last four digits of his/her social security number or year of birth (unless you were given a specific invite code from the provider for that patient).

For more information, please refer to the invitation email you received from noreply@followmyhealth.com or your provider.

Input 4-digit birth year.

Invite Code
